**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm writing in to express my concern for the potential AT&T monopoly on internet and phone services in my area. I specifically have searched high and wide to find reliable but smaller companies. Luckily I was provided with Sonic for my internet provider and have not been happier. I was even lucky enough to land in a new apartment that had fiber available to me, at a great cost and still with the great Sonic customer service. I couldn't get what I get now, in terms of customer support & service as well as value for my money, if I had to be forced to use AT&T.

The customers should have the right to choose from multiple options for their service providers. Not be stuck with one and certainly not with a big one like AT&T. That's just not right and definitely not fair. Thanks for taking the time to read this.

Regards,
